NEW YORK STATE FAIR MISSION STATEMENT

New York State is agriculture, youth, education, industry, diverse cultural traditions and more – our treasured past and brilliant future.

The primary purpose of the New York State Fair is to conduct an annual celebration of the economic, cultural and institutional strengths indigenous to New York with a special emphasis on agriculture as one of the State's largest and most important industries. Along with twelve-days of expositions, the Fair will offer various forms of affordable entertainment and amusement for families and friends, and showcase the talents, skills and aspiration of our youth. The Fair will also promote agricultural growth and awareness through educational programs, Statewide competitions in breeding and showing of livestock, and by promoting and supporting the sale of the State's agricultural and food products.

The Fair administration will proficiently and effectively promote the ongoing use of the Fairgrounds to realize the full potential of the Fair as a leading center for exhibitions, trade shows, agricultural events, and cultural and entertainment productions. At the same time, the Fair administration will foster State pride and maximize revenue while preserving the character and tradition of the Fair.

With a full embrace of the State's insignia, "Excelsior," the Fair will be operated according to the highest standards of professionalism and ethical conduct.

2016 FAIR SEASON
ANIMAL HEALTH REQUIREMENTS
PREPARATION FOR THE FAIR

Contagious Diseases: All animals must be free from contagious disease. *Examples* of contagious diseases for which animals have been denied entry or rejected from fairs include the following: ringworm, warts, mange, sore mouth, respiratory infection and contagious hoof infections.

Animal Identification: Animals must be uniquely identified. Acceptable identification allows positive matching of the animal to all accompanying documents including papers with laboratory test results and vaccination statements. **If a sketch or photograph is to be used for official identification of an animal, the sketch or photograph must contain the signature of the attending veterinarian and date**. Horse sketches and descriptions should reference color pattern, hair whorls, chestnuts, scars and other markings. Llama drawings, as for horses, must positively identify the individual animal. A name or a statement of color without additional distinguishing features or man made identification is not acceptable identification.

Follow Drug and Vaccine Withholding Times: In order to prevent the contamination of food products, labeled withholding times should be strictly adhered to in food producing animals that have been treated with any chemical (drug) or have had vaccine administered.

Isolation: In addition to the possibility that the stress of moving can result in a healthy animal becoming ill, assembling groups of animals increases the chance of exposure to contagious disease. *All animals returning from a fair or show should be isolated from the herd or flock (no direct or indirect contact) for at least two weeks after returning to the premise of origin.*

Proof of Vaccination: A signed, written statement from the attending veterinarian is required as proof of vaccination. A valid animal health certificate which has the vaccination(s) listed and is signed by the issuing veterinarian is acceptable proof of vaccination. The date of vaccination must be listed on all certificates.

Reasons for Fair Entrance Denial in Past Years

- Testing requirements not fulfilled
- Test time constraints not met
- Forged documents
- Mange, Ringworm, Warts, Respiratory Disease or other contagious disease
- Required vaccination(s) not administered
- Vaccination time constraints not met
- Inadequate proof of vaccination
- Lack of or incomplete identification
- Identification between documents varies for the same animal
- Invalid Interstate Charts

Disease status can change. Stay informed about developing animal health issues. Fair entrance requirements may need to be modified.

Don't wait until the last moment to prepare your animal(s) for the Fair. If you have any questions or comments about entrance requirements, you can contact your regional state veterinarian/veterinary technician or the NYS Department of Agriculture, Division of Animal Industry, Albany, NY at **518-457-3502.**

CERTIFICATE OF VETERINARY INSPECTION

New York State Animals: A valid New York State intrastate CVI (form AI 61) is required for: *Cattle, Sheep, Goats, Swine, Llamas, Deer, Monkeys and miscellaneous ruminants*. Each animal must be individually and positively identified on the health chart. The CVI must be issued by an Accredited Veterinarian on or after May 1 of the current year.

NON-New York State Animals: All animals entering New York State must satisfy import health and test requirements for that species. **The interstate CVI is valid for 30 days from the date of issuance with regard to entrance into New York State**. During the fair season (July 1 through Labor Day) valid interstate CVI's can be used multiple times for entrance into fairs. The initial entrance into a fair must be within 30 days of issuance. In order for this certificate to be used at a later fair, it must be initialed and dated by a fair official. If it was issued greater than 30 days prior to movement and is not initialed, the animal will be denied admission. *In addition to state entrance requirements, animal(s) must satisfy individual fair admission requirements. After entry into New York State, an interstate health chart can serve as a fair health certificate if fair requirements (in addition to the interstate requirements) have been fulfilled*.

Note: All vaccine requirements must be met during the duration of the fair. CVI's with vaccinations out of date at the time of the fair are invalid and the animals will be rejected.

RABIES VACCINATION

In consideration of public health concerns, it is strongly recommended that **all mammals** to be exhibited at **any fair in NYS** be vaccinated against rabies. The NYS Interdepartmental Rabies Committee recognizes the probable efficacy and safety of killed rabies vaccine for off-label mammalian species; however, **in cases of rabies exposure**, the NYS Department of Health cannot recognize, as protected, rabies vaccinated animals for which there is no licensed rabies vaccine. *Exhibitors should consult their veterinarian for further information*.

Proof of rabies vaccination **will be required at all fairs** for those species that a USDA licensed vaccine is available (as of 1/1/01 – cattle, cats, dogs, horses, ferrets and sheep). The vaccine must be administered at least 14 days prior to arrival on the fairgrounds but no greater than the labeled time specified for active protection against rabies. The animal's rabies vaccination status must remain current throughout its stay on the fairgrounds. Rabies vaccination of all other mammalian species is strongly recommended. Some fairs may require rabies vaccination of mammalian species not indicated on the label. Please inquire locally. Local rabies requirements will be enforced.

Minimum Age for Vaccination: Animals **105 days of age or older** on the date of arrival at the fair must be vaccinated for rabies (for those species requiring vaccination).

Booster Vaccination: Animals previously vaccinated for rabies but whose vaccine status has expired, are eligible for exhibition upon receiving a booster vaccination. Proof of previous vaccination is required.

NOTE: Rabies titers in lieu of current rabies vaccination is not acceptable.

A fourteen-day rabies vaccination requirement is the minimum time frame that will help to ensure protection of animals against rabies while on the fairgrounds. **It is preferable to establish rabies immunity well in advance of the fair season. Keep in mind that a non-immunized animal (or an animal whose protective vaccination status has expired), exposed to rabies virus prior to receiving its vaccination, is not likely to be protected. Exhibitors should consult with their veterinarian about vaccinating their animal(s) against rabies as soon as possible.** As animals receive their booster vaccination, we will be developing a population that is protected against rabies to the broadest degree possible.

LIVE ANIMALS AS PRIZES

Under Section 358-a of Article 26 of the NYS Agriculture and Markets Law, **live animals are not allowed to be given away** as prizes in any game, drawing, contest, sweepstakes or other promotion.

The exceptions are purebred livestock and fish. Animals can also be given away as part of a bona fide education program. Enforcement is carried out by peace officers or agents of an incorporated SPCA.

CLEANING AND DISINFECTION

All premises on the fairgrounds housing animals must be cleaned and disinfected prior to the opening of the fair and between groups of animals when housing is rotated. (Section 50.2 of Agriculture and Markets regulations)

FAIR ENTRANCE REQUIREMENTS BY SPECIES

If a species is not mentioned in this booklet, please check with the NYS Department of Agriculture/Division of Animal Industry at **518-457-3502** ***for specific fair entrance requirements.***

HORSES (Equidae)

a) **Equine Infectious Anemia Test (EIA/Coggins)** – A valid EIA chart documenting that the animal has been tested (any USDA approved test) within the current or previous calendar years (2015 and 2016 for this fair season) and found to be negative for EIA infection, is required of all equine 6 months of age and older. The animal identification noted on all accompanying documents must match the description on the official EIA chart. (See Animal Identification)

b) **Rabies Vaccination** – Proof of active immunization against rabies required (See Proof of Vaccination & Rabies Vaccination)

c) **Interstate Health Requirements** – Horses 6 months of age or older must test negative for equine infectious anemia. The test must be conducted within 12 months of the day of entry. The horse must be clearly and completely identified. Rabies vaccination is required for all horses over 105 days of age.
