BVD-PI Testing

- All cattle, llamas and alpacas exhibited at NY county fairs or the State Fair must be negative to an approved test appropriate to detect Bovine Viral Diarrhea persistent infection (BVD-PI). The testing veterinarian is responsible to make sure the proper test is conducted. This is a once in a lifetime test that must be reported on the required certificate of veterinary inspection. The issuing veterinarian is responsible for verifying the validity of the test, the identification of the animal and recording the test date on the CVI. If a previous test is not verifiable the test must be repeated.

The New York State Fair will provide bark bedding for Beef Cattle exhibitors this year. This is being done at the request of several beef breed representatives who indicated that exhibitors would be willing to pay an additional fee in order to have bark bedding. Therefore, in addition to the \$7.00 per animal entry fee, there is a \$7.00 per animal bedding fee. Both the entry fee and the bedding fee must be paid at time of entry. No straw bedding will be allowed this year on any of the bark area. If any other feed items are needed, you may contact Harry Moore at (315) 727-0134. If you can not reach Harry Moore, you may contact Mike Teske at (315) 374-1590. You may use straw in the tie out area.

There is no guarantee, expressed or implied, by the New York State Fair that moneys offered by others will be paid.
