Plant material radiates from one focal point with little or no abstraction. Colors are integrated rather than grouped. HB p. 70
 - CREATIVE DESIGN – A design **of** space emphasizing a relationship between form and space, not bound by traditional patterns or styles. Design must show restraint in the amount of plant material used as spaces make up part of the design to create a non-realistic abstract effect. Spaces often replicate the forms used. Design may have more than one focal point but must still show clarity of design. HB pp. 71-72

 - PETITE DESIGN - A design ranging from 3” to 12”. Schedule to determine height, width and depth as well as any additional staging provided. Additional staging provided by exhibitor is considered as part of the height requirement. HB p.73
